Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 1st April —, 1880.

Sir,

The regular mason, Geo. W. Brooke, is always in requisition for repairs & alterations, and so constantly employed that we cannot always procure his services. If he had an attendant, as masons always have and ought to have, as a positive economy in time, I think he could get through the work he has to do sooner and better.

Respectfully yours

I. A. C. Booth
